During more than 130 years of its history, the traditions of the Queensland Police Service have been shaped by immense social changes, significant advances in technology and the continual evolution of operational procedures and staff attitudes toward their role and community co-operation.

By taking part in the Police Headquarters tour, you will be introduced to our developments which make the Service technically and scientifically advanced. We aim "to be a professional Police Service, dedicated to excellence and committed to working in partnership with the people of Queensland to enhance the safety and security of our community".
