

Above: Senior Sergeant Trevor Bennett trains new Traffic Camera Office staff members Raeneel Sharma and Katrina McLeod to help them interpret images captured on film.

Left: Each Vito van is equipped with a digital camera and (from left to right) Panasonic Tough Book Laptop computer, radar control unit, and on the far right, a scene viewer (bottom) and camera control unit (top).

Below: The new Vito vans will eventually replace the older style 4WD mobile speed camera units commonly seen on highways.
