

District Crime

In this section, a detailed examination of reported and cleared crime is provided for Queensland's police statistical regions and districts during the 1998/99 financial year.

The tables include some offences where the Police District in which the offence occurred cannot be identified according to current police boundaries. There are two instances where this may occur:

1. The offence was detected as part of a covert operation, and the location of the offence has not currently been recorded to maintain security; and
2. The offence took place before the current boundaries were created, and the area within which the offence occurred has since been divided between newly created police divisions, districts, or regions. This mainly occurs where an offence is reported several years or more after it actually occurred.

In these cases, the offences have been included in the lowest hierarchical geographical level available. Therefore, police district statistics may not always sum to regional totals, or regional statistics to Queensland totals.
